ABOUT **AVENTO**

Sport is part of everyday life. At Avento we believe that everyone should be able to participate in whatever capacity suits them best. That's what has driven us to develop and produce up-to-date, affordable sports gear for the last 6 decades. We do this based on the following blueprint:

ALL SPORTS AND ALL SORTS

Avento's main goal is to make sport accessible to as many people as possible. That's why we keep our collection so extensive. Whether you're looking to train skills, prepare for competition, build strength, increase endurance or to improve your body shape, you can be sure that Avento has the answer for all your sporting needs.

VALUE FOR MONEY

Keeping our products affordable while maintaining decent product quality goes hand in hand with our focus on accessibility. We go to great lengths to develop and produce attractive quality sports and leisure gear at a fair price point.

EVERYWHERE, EVERY DAY

All Avento products are designed for optimal functionality and comfort but durability and practicality are also key in our design process. Our gear should be able to withstand daily use, have a long lifespan and have a high 'grab-it-and-go' factor. If our products are user-friendly, compact, lightweight, portable and/or collapsible, it means you can use and store them almost anywhere, making regular exercise more easily achievable.

NO-NONSENSE AND STILL FUN

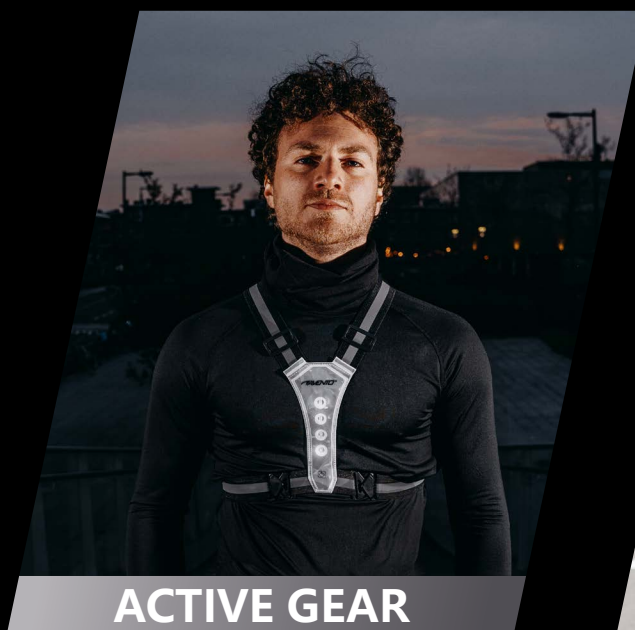

We like to keep things simple. Avento is all about providing basic versions of a range of sportswear and equipment to the everyday sports enthusiast. However, sport is also synonymous with fun and recreation. Enjoying movement, together time and healthy competition is just as important as improving performance and fitness levels. Look good, feel great and have fun doing it!

TODAY'S TRENDS, TOMORROW'S ESSENTIALS

Since our founding in the 60's – when sport as leisure and personal fitness became popular - we have responded to most every market trend in the sports sector. Understanding the needs of both individual enthusiasts and emerging sports are instrumental in the development of our product portfolio, as are material science and contemporary production processes. What we learn today (from you) shapes what we will produce tomorrow. Keep on inspiring us!

ONE CLEAR CHOICE

At Avento, we aim to keep our product range as comprehensive as possible and to offer consistency in style and product quality. You can always find what you need at a fair price via a single trusted source. Plus, if you always choose for Avento, then you can enjoy the added benefit of your gear always matching! Year after year of fuss-free shopping for everyone!

PADEL

THE WORLD OF PADEL

Padel is currently the fastest growing sport in the world. This super dynamic racket sport is popular within all age groups and is the ideal sport to start playing with your friends. Given our history and experience with all types of racket sports and in producing lots of related products for the Avento brand since the 60's, it was a logical step to enter the world of padel. As part of our heritage lies with creating rackets for all types of players, Avento has designed new padel rackets for all ages, levels and types of players. Whether you are a young beginner or a more experienced player. Each racket has its own combination of materials, shape and balance that makes it suitable for every unique padel player. Depending on your level and personal preferences, you can choose to focus on power, control, rigidity, agility and/or durability. There is an Avento racket for every player.

EXTENSIVE KNOWLEDGE

Our inhouse padel experts have carefully chosen the best materials to work with, giving you the most optimal padel experience. Working with one of the best padel racket factories in the world, we have gained extensive knowledge about the sport and the production of the right gear to play it with. Combining strong materials such as 12K Carbon with high quality EVA 15 foam and durable PU grips. Whether a player is going for a more lightweight, low balance racket or is looking for a more powerful swing. Avento produces every racket with an eye for durability, performance and of course a smooth design.

PACKAGING

All Avento padel products carry our most up-to-date, fresh, and trendy Avento signature designs. Each racket has its own unique hangtag with the most important Unique Selling Points of the padel racket on it: shape, profile, level, balance, and weight. Extra information is available on the back of these tags, providing an explanation on the 'sweet spot' and showing the number of stars of power, control, rigidity, agility and/or durability, making it easier to choose the right racket for every player. All product titles and manuals that accompany the products are available in 23 languages.

The Avento padel rackets come with a handy mesh padel racket bag. With this bag you can easily take your racket with you to the padel court or anywhere else. The mesh fabric will make sure the racket is able to 'breathe' and dry quickly, preserving the materials in the best way possible.

COMPLETE AVENTO EXPERIENCE

Avento offers a full range of active products, such as sports wristbands, towels and drinking bottles. For a complete Avento padel experience, you can add these accessories to your collection.
