AVENTO

Sport is part of everyday life. At Avento we believe that everyone should be able to participate in whatever capacity suits them best. That's what has driven us to develop and produce up-to-date, affordable sports gear for the last 6 decades. We do this based on the following blueprint:

ALL SPORTS AND ALL SORTS

Avento's main goal is to make sport accessible to as many people as possible. That's why we keep our collection so extensive. Whether you're looking to train skills, prepare for competition, build strength, increase endurance or to improve your body shape, you can be sure that Avento has the answer for all your sporting needs.

VALUE FOR MONEY

Keeping our products affordable while maintaining decent product quality goes hand in hand with our focus on accessibility. We go to great lengths to develop and produce attractive quality sports and leisure gear at a fair price point.

EVERYWHERE, EVERY DAY

All Avento products are designed for optimal functionality and comfort, but durability and practicality are also key in our design process. Our gear should be able to withstand daily use, have a long lifespan and have a high 'grab-it-and-go' factor. If our products are user-friendly, compact, lightweight, portable and/or collapsible, it means you can use and store them almost anywhere, making regular exercise more easily achievable.

NO-NONSENSE AND STILL FUN

We like to keep things simple. Avento is all about providing basic versions of a range of sportswear and equipment to the everyday sports enthusiast. However, sport is also synonymous with fun and recreation. Enjoying movement, together time and healthy competition is just as important as improving performance and fitness levels. Look good, feel great and have fun doing it!

TODAY'S TRENDS, TOMORROW'S ESSENTIALS

Since our founding in the 60's – when sport as leisure and personal fitness became popular – we have responded to most every market trend in the sports sector. Understanding the needs of both individual enthusiasts and emerging sports are instrumental in the development of our product portfolio, as are material science and contemporary production processes. What we learn today (from you) shapes what we will produce tomorrow. Keep on inspiring us!

ONE CLEAR CHOICE

At Avento, we aim to keep our product range as comprehensive as possible and to offer consistency in style and product quality. You can always find what you need at a fair price via a single trusted source. Plus, if you always choose for Avento, then you can enjoy the added benefit of your gear always matching! Year after year of fuss-free shopping for everyone!

SMART PACKAGING

High-end technical specifications, carefully chosen modern materials and parts, and first-rate design combine to guarantee our users excellence in comfort, functionality, safety, and affordability.

All newly-developed products carry the most up-to-date, fresh, and trendy Avento colour scheme, creating a uniform and attractive collection of winning products. Perhaps even more importantly – as it is key, being the main first impression of our products and brand – our packaging not only benefits from the same detailed consideration as our products, but extra care is taken to make packaging especially attractive, orderly, and properly informative.

So:

- Packaging includes more cardboard and less single-use plastic than ever, while remaining robust, durable, and attractive in in-store display.
- Product categories are often evident in the appearance of the products themselves, but always on their packaging by way of colour usage, making in-store displays easy to organize and clearly readable for consumers (see photo right – all active gear items have matching packaging with the same silver grey-coloured band).
- Relevant exercises are visualized on the packaging).
- Product information on-product, on packaging, and in manuals is uniform, succinct, and brand-consolidated.
- All product titles, important warnings, and any manuals that accompany the products are available in 23 languages.
- All packaging is designed to be as durable and e-commerce friendly as possible – taking into account easy shipping, re-use, and return recovery.

ACTIVE GEAR

We believe everyone should be able to achieve their athletic goals. Whether you're looking to retrain skills, prepare for competition, build strength, increase endurance, or improve your body shape. We provide you all the active gear essentials you need. We emphasize strong, safe, durable, contemporary products for everyone. With Avento's active gear, look good, feel great and enjoy the journey towards better fitness.
